

### ONE PAGER

#### Pure Utility Token

Betrio is a pure utility token, based on the Ethereum Blockchain.

You can use the Betrio cryptocurrency to deposit, bet, and withdraw in its own bookmaker – BUFF.bet.

Betrio will give gamblers enormous benefits, in comparison to fiat money betting in traditional bookmakers. This will make it unique, powerful, and very attractive to gamblers and investors alike.

#### Usage and Demand

##### The Current Situation

You bet in a traditional bookie with fiat money on the event:

Chelsea

Arsenal

| The wager is a win for Chelsea.

The game ends in a draw, and you lose your bet.

##### The Bright Future

You bet in Betrio's bookmaker BUFF.bet with Betrio on the same event:

Chelsea

Arsenal

| The wager is a win for Chelsea.

The game ends in a draw, and you lose your bet with Betrio, **BUT you get 35% cash back in Betrio in your account\***. You can either withdraw the amount or try your betting skills on other events

\*You get 35% cash back on every lost wager on a monthly basis. For instance, let's say that you place bets for 30,000 Betrio (BEO) in one calendar month. On the first day of the next calendar month, you'll get back 35% – 10,500 BEO – directly in your Buff.bet account.

\*\*You receive cash back only for new deposits. If we take the example above, this means, that the 10,500 BEO you got as cash back can be used for further betting, but if you lose, you don't get any cash back on that.

**To get a new cash back, you have to make a new deposit.**

THAT'S IT! This is the power of Blockchain, own cryptocurrency, and **utility tokens!**
